

COMMUNITY ADVANCEMENT NETWORK TOP 10 REASONS TO LOVE THE CAN DASHBOARD

#1

It helps to develop a holistic understanding of our community's overall well-being and identify areas of collective attention and action.

#2

It is updated annually so it is a report that we can rely-on year-in and year-out.

#3

It reports on the 5-year trend for each indicator so that we don't have to draw conclusions from just one year's worth of data.

#4

The indicator data are displayed for a variety of geographic levels, allowing us to compare outcomes for Austin to outcomes for other cities/counties, the state and the nation.

#5

It includes a target for each indicator and a target year to reach that indicator, allowing us to determine if we are on track to meet the target.

#6

It helps us to assess how different racial/ethnic communities are fairing compared to the broader community and where we should focus our attention and resources.

#7

It includes a one-page analysis for each indicator that: outlines where we stand; presents related research/data; and outlines local efforts to improve outcomes.

#8

The indicator data in the CAN Dashboard data and additional data that drills-down into each policy area are available to users through a user-friendly interface on our website.

#9

It includes the a "Dashboard at a Glance" feature so that we can quickly assess historical trends and the likelihood of meeting data targets.

#10

The CAN Dashboard has now been a trusted source of information for 10 years.
