

EARN & LEARN PROFILES

Program Name	Advanced Manufacturing
Organization	Austin Community College
Partners	Samsung, Applied Materials, and Infineon

EDUCATION

The students attend credit courses while they work. Samsung and Infineon students pursue the AAS in Manufacturing related degree tracks and the Applied students pursue the Level 1 Certificate in Manufacturing.

PAY

Typically, the range is \$18 to \$23

OTHER SUPPORTS

ACC provides guidance the first year through on-site orientation and on campus advising/tutoring throughout the year for all three companies. All the companies offer mentorship internally.

PROGRAM PARTICIPATION

Approximately 10-12 per company

HOW TO SIGN-UP

Samsung:

Samsung recruits directly with select high schools. However, each spring they recruit from ACC students for any spots left unfilled.

Applied Materials and Infineon:

Applied Materials and Infineon openly recruit for their spots. ACC connects all their students (credit and non-credit) with these opportunities.
